

## TITANESQUE

Press opening - **Wednesday 4<sup>th</sup> October 2017** from 3 pm

As part of the PARCOURS BIJOUX, a Parisian event next fall, the gallery chose to exhibit jewelry made of titanium, alone or in combination with gold, silver and gemstones.

This extremely light metal, captivating but uncompromising, offers by its colors an immense freedom of expression and allows extravagant volumes.

Jewels, worked in leaves or threads of an incredible finesse will rub shoulders with larger pieces, forged and accompanied by gold and stones. Finally, the astonishing palette of colors, from the most subtle to the most exuberant, even iridescent, gives birth to jewels of an incredible variety. Jewelry from 150 to 10 000 euros.

### CAPTIONS, clockwise
